AMAZING DENTAL CARE

COMMON QUESTIONS

- **Is Mexico Dentistry Safe?** Los Algodones is known for its charm and small town beauty, and as a dental Mecca .
- **Can my crowns/dentures/bridge be completed in 1 day?** No. For these procedures we need a minimum of 2 days. For complete restorations we need up to 4 days. At the time of your initial consultation our dentist will provide you an estimated timeline.
- **Can my dental procedure be started the same day as my exam?** Yes, in most cases we start your dental care immediately. However, if you are taking medications, such as blood thinners, your dental care may be delayed. Our dentist will clarify this with you at the time of your initial consultation.
- **How do I know if Amazing Dental Care provides quality care?** Ask our past patients. See the referrals posted on the internet. Ask for referral names and phone numbers.
- **How does Amazing Dental Care's courtesy transportation work?** We drive with you, we stay with you, and we bring you back. We leave at 6:00a and usually return between 4:00p-6:00p.
- **Is there a cost to the transportation?** No, however, this courtesy it is limited to our dental patients.
- **Can I use the transportation for teeth cleaning?** This is a difficult question. Our transportation is a courtesy and the seating is limited. It is our priority to provide transportation for patients who receive extensive dental work and, therefore, would be uncomfortable driving. If seating is available, we extend this benefit to those who may need cleaning, only. We find that this introduces patients to our lovely office and friendly staff.
- **Can I use the transportation for an exam?** Yes. You can schedule the transportation for exams, follow-up visits, and adjustments.
- **Can my spouse join me?** Yes, however, there is a charge. Transportation is intended for patients.
- **Can I drive myself?** Yes. The drive to Los Algodones is approximately 3 hours from Phoenix and 3 hours from San Diego.
